

1 THE DICE

DIE	CARRIES
Boost (d6) · Ability (d8)	Success · Advantage
Proficiency (d12)	+ TRIUMPH
Setback (d6) · Difficulty (d8)	Failure · Threat
Challenge (d12)	+ DESPAIR
Force (d12)	Light / Dark pips (some faces 2)

Triumph also counts as a Success, Despair as a Failure — the two never cancel each other. Net 1+ Success = it works; Advantage/Threat happen either way.

2 DIFFICULTY & UPGRADES

Simple	—	don't roll it
Easy	■	primitive lock; light wounds
Average	■■	typical lock; stitching cuts
Hard	■■■	complicated lock; storm flying
Daunting	■■■■	sophisticated lock; near-mortal wounds
Formidable	■■■■■	astrogation, no navicomputer

Upgrade: ■ → ■ · ■ → ■ · ■ → ■; none left to upgrade → add one, further upgrades convert it. **When:** Destiny flip (9) · Adversary talent · desperate opposition.

3 BOOST / SETBACK SOURCES

ADD BOOST	ADD SETBACK
Aim (1; twice = 2)	Poor light, smoke, dark
Superior tools	Wrong or damaged tools
Time to spare, help set up	Time pressure, weather
Unskilled assist (4)	Defense: 1 per point; cover = ranged def 1
Relevant fragment on Knowledge (10)	Called shot: 2 (1 if double-aimed)

4 OPPOSED & ASSISTANCE

- Opposed:** purples = higher of target's skill/characteristic, upgraded a number of times = the lower.
- Skilled assist** (unstructured / GM call): one roll with the best characteristic AND best skill across both helpers.
- Unskilled assist:** add ■ instead (GM caps stacking).
- In combat:** Assist is a maneuver — engaged helper grants ■.
- No re-rolls: a new attempt needs a new approach or a new cost.

5 COMBAT NUMBERS

Melee / Brawl / Lightsaber: always ■■, engaged only.

RANGE	R. LIGHT	R. HEAVY	GUNNERY
Engaged	2	3	X
Short / Med / Long / Extr	1 / 2 / 3 / 4 purple		

- Vehicles:** target 2+ sil bigger ■ · within 1 ■■ · 2+ smaller ■■■. Range doesn't change it.
- Crits:** **Adv** = Crit rating or **TRIUMPH**; needs 1+ wound past soak; ONE crit per hit; d100 +10/existing crit +10/Vicious rank. Past Wound Threshold = down + crit.
- Maneuvers:** 1 free; 2nd = 2 strain or traded action; cap 2.

6 ADVERSARIES

- Minion group:** WT = n × one WT · strain = wounds · group skills at n-1 ranks · one drops per WT multiple; any crit drops one.
- Rival:** full skills; no strain track (strain = wounds).
- Nemesis:** both tracks; **Adversary X** = upgrade difficulty of combat checks against them X times.
- Improv:** minion 1-2 chars at 3 · rival 2-3 · nemesis 3-4 + Adversary 1-2.

7 SOCIAL OPPOSITION

Charm / Negotiation	vs Cool
Coercion / Leadership	vs Discipline
Deception	vs Discipline (or Vigilance for an off-guard target — pick by context)

8 FEAR

Discipline (or Cool) vs situational difficulty — unsettling ■ up to supernatural ■■■■■. **Fail:** ■ on everything until end of encounter. **Threat:** strain. **DESPAIR:** +1 difficulty on everything until end of encounter. Severe failures may flee/freeze (GM call). Force-sensitive fail: optionally Conflict = check difficulty, penalties still apply.

9 DESTINY POINTS

Session start: 1 Force die per player — Light pips → player pool, Dark → GM pool. **Spending flips the point to the other side.** Players: upgrade a PC check ■ → ■ · upgrade difficulty of an NPC check · buy a helpful fact · power talents. GM: mirror image against the PCs.

10 THE EMBER AGE — HOUSE RULES

- Fragments:** a held, relevant fragment = ■ on related Knowledge. Tags Jedi/Sith/Civic — same event, different tags, one load-bearing disagreement. Always.
- Reconstruction:** 3+ fragments on one Question → Hard Knowledge (Lore), group scene. All three tags: upgrade ability once. One tag only: upgrade difficulty once. Success = Truth + Insight (remove a Setback category, or unlock an out-of-career talent) · **TRIUMPH** = a secret beyond the Question · **DESPAIR** = a corrupted conclusion, believed.
- Witnesses:** open Force use → community shifts one step (awe or fear) + ■ on social checks there until addressed.
- Wellsprings:** Force Rating up / new power tree = XP *plus* a Wellspring found in play (holocron, vengeance, living mentor).
- Relight a beacon** (3 stages, any order): **Wake it** Mechanics/Computers vs dead-man failsafes · **Chart it** Hard Astrogation, fragments = ■ · **Speak to it** Knowledge or social vs old Republic handshake protocols, or convince the guild observer.

11 SESSION SPINE

XP (house): 15-20 per session, +5 for strong Obligation play. And the line of the era, worth saying once a night: *"Nobody broke the galaxy — everyone just stopped holding it up."*
